

Business EasyGreen

This certificate is awarded to
Deep Recording Studios

With the help of E.ON and Climate Care, 100% of the carbon emissions from this site have been successfully offset, helping to combat the effects of climate change.

Climate Care's range of projects are independently verified, with at least 30% of them meeting the standards set by the Clean Development Mechanism.

By purchasing* electricity from 12 August 2009 to 11 August 2010 generated using wind and hydro sources** Deep Recording Studios is helping change energy.

Calculation of carbon offset requirements have been made by E.ON UK and are available on request.

*This energy is exempt from the Climate Change Levy. **As defined in the Finance Act 2000.
